Vero Beach, Fl. 32966

**RE: J. A. Thompson Baseball Field. (Indian River Sports Complex Inc.)**

Dr. Mr. Sanders

Indian River Sports Complex would like to thank the School Board of Indian River County for partnering with us in the effort to provide a quality youth baseball program to the Indian River County community. The J. A. Thompson Baseball Field behind Rosewood Magnet School over the years has played a large part in the development of young baseball players in Vero Beach. The School Board of Indian River County has been very generous to continue its lease agreement of the facility to Indian River Sports Complex and we look forward to a great future together.

In the sense of a true partnership, the Indian River Sports Complex has provided and will continue to provide for the middle school baseball teams to have places to practice and train at J. A. Thompson Field, but also at Riley Field and Samson Field at our central complex across 16<sup>th</sup> Street from the Vero Beach High School. Also at the central complex, Indian River Sports Complex allows overflow parking during Vero Beach High School events at the Citrus Bowl and Freshman Learning Center, some of which is a fundraising opportunity taken advantage of by high school booster clubs who sell reserve parking at the central complex. Additionally, Indian River Sports Complex, along with its volunteers, provides the maintenance for the grounds at J. A. Thompson including, but not limited to mowing, herbicides, fence restoration, building repairs, and general upkeep in and around the baseball field.

In previous years the City of Vero Beach assisted with the utility costs at the J. A. Thompson facility, which helped keep our player fees low. This allowed us to offer a high quality program to the 400 plus young boys and girls that participate in our baseball program. However, the City of Vero Beach has recently altered its position concerning the support of youth baseball, and has withdrew its monetary support. This put a significant strain on the costs of running the program. The power bill alone at J. A. Thompson runs approximately \$900.00 a month during the season, and since we are a volunteer based,

non-profit organization that survives on donations and sponsorships, it has made it increasingly difficult to finance the baseball program without increasing player fees or garnering additional contributions.

Indian River Sports Complex Inc. is requesting that the School Board of Indian River County assist with some of the utility costs at J. A. Thompson Field. The spring baseball season lasts just over 3 months, so an annual contribution of \$3,200.00 by the School Board would pay for the lights at J. A. Thompson Field, and free up player fees and sponsorship monies to cover the other costs of running the program. In return, Indian River Sports Complex would continue to maintain the overall facility, allow for School Board teams and events to use our facilities, and allow events at the Citrus Bowl to use our parking lots at the central complex.

Thank you, and we look forward to your continued partnership and support.

Indian River Sports Complex Inc.
